Laundry-to-Landscape Greywater Program
Direct Install Application

IMPORTANT: Please read the program rules and guidelines before submitting your application.

Applicant Information

Applicant name: _____

Mailing address: _____

City: _____ Zip Code: _____

Address where greywater system will be installed: _____
(If different from mailing address)

Phone number: _____ E-mail address: _____

PWP account number (for installation address): _____

Type of property at which greywater system will be installed: _____
(Single-family house, multi-family dwelling, etc.)

Laundry-to-Landscape Greywater Program Questionnaire

1. Do you have a top or front-loading clothes washing machine? ☐Top ☐Front
2. Is the washing machine near an exterior wall of the house? ☐Yes ☐No
   If not, is there a crawl space that is accessible enough to run the pipe under the house and outside through an air vent? ☐Yes ☐No
3. Is the irrigation area near the washing machine? ☐Yes ☐No
4. Do you have a yard that is a level or down sloping from the clothes washer? ☐Yes ☐No
5. Are you submitting the photo of landscape? (Photo submission of landscape is recommended) ☐Yes ☐No
6. Are you going to water existing plants or new plants? ☐Existing Plants ☐New Plants
7. How many people live in your home? _____
8. How many loads of laundry does your household do per week? _____
9. Do you have a water softening system?

Rules and Requirements

Please read the following rules and requirements for program participation and initial below:

Initial Here ↓:

	I am currently a PWP customer and the legal owner of the home located at the above referenced service address.
	I consent to receive an onsite pre-installation evaluation prior to program participation
	I agree to participate in follow-up survey(s), post-installation verification and follow-up visits to the installation site.
	I am aware that PWP may at any time, modify, suspend, or terminate this program without prior notice.
	I am aware that funding is limited and direct installs are available on a first come first serve basis until funds have been depleted or program terminates.
	I am aware that incomplete or illegible applications will be denied.
	I agree to maintain my L2L Greywater System and follow the guidelines in the L2L Greywater System Owner's Manual to maintain a well-functioning greywater system.
	I agree to comply with all applicable state and local laws pertaining to greywater systems.
	I confirm that I fully understand how the system will operate and how it will look. I have seen the pictures shown to me by PWP.
	By accepting the direct installation of an L2L Greywater System, I agree to release the City of Pasadena, its employees, agents and representatives, from any and all liability, claims, or damages which in whole or in part result from, or arise out of, or are claimed to result from or arise out of the installation and use of the L2L Greywater System. City of Pasadena assumes no responsibility or liability for any damage that may occur to an applicant's property as a result of participation in this program. City of Pasadena cannot guarantee that installation of fixtures or measures will result in lower utility costs.

What are the minimum requirements that I need to follow for my greywater system to comply with the law?

Under the California greywater code, CPC Title 24, Part 5, Chapter 16, washing machines do not require a permit as long as the installer follows the following minimum requirements outlined in the code:

1. If required, notification has been provided to the Enforcing Agency regarding the proposed location and installation of a greywater irrigation or disposal system. *Note: A city, county, or city and county or other local government may, after a public hearing and enactment of an ordinance or resolution, further restrict or prohibit the use of greywater systems.*
2. The design shall allow the user to direct the flow to the irrigation or disposal field or the building sewer. The direction control of the greywater shall be clearly labeled and readily accessible to the user.
3. The installation, change, alteration or repair of the system does not include a potable water connection or a pump and does not affect other building, plumbing, electrical or mechanical components including structural features, egress, fire-life safety, sanitation, potable water supply piping or accessibility.
4. The greywater shall be contained on the site where it is generated.

5. Greywater shall be directed to and contained within an irrigation or disposal field.
6. Ponding or runoff is prohibited and shall be considered a nuisance.
7. Greywater may be released above the ground surface provided at least two (2) inches (51 mm) of mulch, rock, or soil, or a solid shield covers the release point. Other methods which provide equivalent separation are also acceptable.
8. Greywater systems shall be designed to minimize contact with humans and domestic pets.
9. Water used to wash diapers or similarly soiled or infectious garments shall not be used and shall be diverted to the building sewer. Greywater shall not contain hazardous chemicals derived from activities such as cleaning car parts, washing greasy or oily rags, or disposing of waste solutions from home photo labs or similar hobbyist or home occupational activities.
10. Exemption from construction permit requirements of this code shall not be deemed to grant authorization for any greywater system to be installed in a manner that violates other provisions of this code or any other laws or ordinances of the Enforcing Agency.
11. An operation and maintenance manual shall be provided. Directions shall indicate the manual is to remain with the building throughout the life of the system and indicate that upon change of ownership or occupancy, the new owner or tenant shall be notified the structure contains a greywater system.

Signature

I have read, understand, and agree to the rules, requirements and guidelines stated on this application.
